SKILLS

Frontend Development

- **HTML5, CSS3 (Flexbox, Grid)**
- **JavaScript (ES6+)**
- **React, Next.js**
- **Tailwind CSS**, Styled Components
- Responsive Design, **Accessibility (WCAG)**
- Performance Optimization & Lazy Loading

EXPERIENCE

Senior Frontend Engineer

2022 — Present

@ ACME Tech

- Designed and developed a **B2B analytics dashboard** using **Next.js** and **TailwindCSS**, reducing page load time by **40%**.
- Integrated **GraphQL APIs** with React Query to optimize data fetching, reducing request count by **25%**.
- Implemented **CI/CD pipelines** with GitHub Actions and Vercel for faster releases.
- Contributed to the **internal design system** and improved UI/UX consistency.
- Mentored junior developers, improving overall code quality.

Frontend Developer

2019 — 2022

@ Startup XYZ

- Built **SPA** with React and Redux Toolkit, optimizing performance for **mobile users**.
- Implemented **automated landing pages** for marketing, increasing leads by **30%**.
- Conducted **A/B tests** and behavior analysis using Google Analytics.
- Designed a **shared UI component library** ensuring consistent branding.

PROJECTS

Senior Frontend Engineer

2022 — Present

- Designed and developed a **B2B analytics dashboard** using **Next.js** and **TailwindCSS**, reducing page load time by **40%**.
- Integrated **GraphQL APIs** with React Query to optimize data fetching, reducing request count by **25%**.
- Implemented **CI/CD pipelines** with GitHub Actions and Vercel for faster releases.
- Contributed to the **internal design system** and improved UI/UX consistency.
- Mentored junior developers, improving overall code quality.

Backend / DevOps

- **Node.js**, Express.js
- **MongoDB**, PostgreSQL
- RESTful API, **GraphQL**
- Vercel, Netlify, **Docker (basic)**

Certificates

- TOEIC: 700
- AWS Certified Developer - Associate
- AWS Cloud Practitioner
- AWS Certified Solutions Architect - Associate

Tools & Other

- **Git / GitHub / GitLab CI**
- Figma, Adobe XD
- Agile / Scrum workflow
- Unit Testing (**Jest**, **React Testing Library**)
- Basic Blockchain (**Ethers.js**, MetaMask integration)

Frontend Developer

2019 — 2022

- Built **SPA** with React and Redux Toolkit, optimizing performance for **mobile users**.
- Implemented **automated landing pages** for marketing, increasing leads by **30%**.
- Conducted **A/B tests** and behavior analysis using Google Analytics.
- Designed a **shared UI component library** ensuring consistent branding.

EDUCATION

Bachelor's in Software Engineer

2021 — 2025

FPT University
